Description			
Modify the BasicFile to return a warning instead of an error if a file is opened twice. Relevant for using Bootstrap outside MARTe2 app in AmpegonPsTb project.			

History

#1 - 31.08.2022 13:20 - Pedro Lourenco

- Status changed from New to Code: Impl

#2 - 31.08.2022 13:29 - Pedro Lourenco

Modified BasicFile.cpp to avoid returning and error if the method Open() is called when the file is already opened. The error was replaced by a Warning.
Accordingly, modified test FileSystem_L1Portability_BasicFileGTest.TestOpen_twice to "return true if the first Open() is true and the second is also true."
All "FileSystem_L1Portability_BasicFileGTest.*" tests PASS OK on CCS v7.0.
