**Description**

Implement requirement MARTe-EX-D-1.1.5 based on the original MARTe implementation

Note: One of the most common CPU architectures and is crucial that MARTe is capable of seemingly running in this type of OS.

Note: As part of this activity produce a wiki page with a tutorial on how to install and configure the CentOS 6.1 development environment.

Note: In order to deploy MARTe in Linux systems the compiler to be used shall be GCC.
