Sprint review

Sprint retrospective

- Things that the team should start doing

1. When branching from a branch which is not develop, the merge shall be made back to this branch (and not to develop!).
2. Always put a note in redmine when you branch from a branch which is not develop. Write this information in the user-story from where the branch was performed and on the user-story that will use this new branch.
3. Merge to develop when the user-story is closed.

- Things that the team should stop doing

- Things that the team should continue doing

Technical debt

Non-completed user-stories: #230, #246, #248, #272

Backlog review (restimation, reprioritization, weighting)

Main sprint goal was achieved. Windows version to be aligned with Linux in the next two sprints. Next sprint will be dedicated to bug fixing and documentation.
